

How to join a session in BigBlueButton

1. In your course, navigate to the module with the BigBlueButton session, and click the **Join session** button.

Introduction to elearning

This conference room is ready. You can join the session now.

Recordings

There are no recording to show.

2. Depending on whether you are using headphones, you may be asked to indicate how you would like to join the audio. If you would like to participate, click the Microphone option. If you would like to listen only, click the Listen only option.

How would you like to join the audio?

Microphone

Listen only

[Join using your phone →](#)

3. You may also have to grant permissions for your device to use the microphone, and/or you may be asked to perform an audio check.

This is a private echo test. Speak a few words. Did you hear audio?

Yes

No

4. After you have given all the permissions required, you will be placed in the session.
5. To end the session, click the three dots in the top right of the screen, and select **End meeting**.
